ML MORTISE LOCKSET

PROJECT:

SUBMITTED BY:

DATE:

NOTES:

- Heavy duty commercial mortise lock, all bolts are made of stainless steel.
- UL listed 3 Hour Fire Rating with the ANSI A156.13 Grade 1 specification.
- The lock case has a dimension of 5/8" (92mm) center cylinder to spindle, which enables the lock to retrofit most of manufacturers' mortise lock, with little to no modification to the drill hole of door, offering for like replacement capabilities.
- Available in Entry, Classroom, and Storeroom Functions
- Finish: US32D
